

6th Grade Summer Reading

We want to welcome you to 6th grade, and look forward to having you as a class this upcoming year. During your summer break, we would like you to read the book *Wonder* by R.J. Palacio. We will be discussing it during our first classes of the year.

Math skills to review are multiplication and division facts, decimals, fractions, and percentages.

Have a great summer!!!

From The Junior High Teaching Staff
