Chris Samataro

Chris is best described by his innovative approach, using “out of the box” methods to artificially simulate the game for players. **As I'm Possible Certified Trainer**, he has credentials in Skills Enhancement, Ball Handling and Playmaking. His absolute love of the game and passion for coaching is what sets his training apart from any other program in the area.

Every student will bring their own basketball to each clinic session. Any questions, please contact athletic director, Karen McLaughlin at karenzac@comcast.net
